

Sustainability Policy Sand Dollar Sports – Sunset Restaurant

Date of creation	September 22, 2025
Last Updated	May 25, 2026

Sand Dollar Sports Cozumel is a business group comprising the Sand Dollar Sports brand, which specializes in diving operations and marine tours, and the Sunset Restaurant brand. Both are located on the west coast of Cozumel, Mexico.

Sand Dollar Sports provides unique marine experiences, including scuba diving excursions within the Cozumel Reefs National Park, snorkeling tours, SNUBA adventures, coral reef restoration activities, and PADI diving courses for all certification levels. Sunset Restaurant complements these experiences by offering food and beverage services featuring Tex-Mex cuisine in a scenic coastal setting.

At Sand Dollar Sports Cozumel and Sunset Restaurant, we recognize that our operations have the potential to impact the environment and local community if not managed responsibly. For this reason, we have implemented an Environmental Management System (EMS) aligned with the requirements of the EarthCheck Certification Program.

Sand Dollar Sports Cozumel and Sunset Restaurant are committed to achieving and maintaining best practices in environmental and social sustainability. As part of this commitment, we have partnered with EarthCheck, the world's leading environmental certification and benchmarking organization, and participate in annual benchmarking assessments to measure, monitor, and continually improve our sustainability performance.

Through the implementation of sustainable management practices, we strive to minimize our environmental footprint, improve operational efficiency, reduce energy and water consumption, lower greenhouse gas emissions, and minimize waste generation.

Our organization is committed to complying with all applicable local, regional, national, and international legislation, regulations, and industry standards. To support this commitment, a Sustainability Representative has been appointed as the EarthCheck Coordinator, responsible for documenting, monitoring, and promoting initiatives that enhance the environmental and social performance of our operations.

We are dedicated to supporting the local economy and community by providing employment opportunities for residents and, whenever feasible, sourcing sustainable products and services from local suppliers in accordance with Fair Trade principles.

We encourage all employees to actively communicate and demonstrate our commitment to environmental and social sustainability to key stakeholders, including guests, suppliers, business partners, and the wider community. Through collaboration and continuous improvement, we aim to contribute positively to the long-term sustainability of Cozumel and its natural and cultural resources.

John J. Flynn
